

INTRODUCING THE **HOBIE MIRAGE**

PRO ANGLER

HOBIE MIRAGE PRO ANGLER

Ever wanted to gain access to the next new honey-hole but just couldn't quite figure out how to get there? How about seeing that sweet spot back through the woods, brush or shallows that you couldn't reach with a traditional boat? Better yet, what about that area that you've been dying to get down to, but there was no launch ramp or road leading down to the waters edge? Even worse, how about that absolutely perfect spot that has been closed off to traditional motorized boats?

Look no further, your answer has arrived. Introducing the new **Hobie Mirage Pro Angler**. One of the world's lightest, most efficient, featured-filled boats on the market today. A revolutionary design breakthrough with extraordinary stability. It has everything you need to maximize your angling experience without sacrificing comfort, functionality or storage capabilities.

The Pro Angler comes loaded with features that puts it in a class by itself. With a capacity of over 600 lbs., you can bring it all. Protected horizontal storage for up to six rods and two additional vertical rod holders. Space for 13 Plano® tackle boxes, three in-hull storage compartments, plus an additional large on-deck storage area for an optional livewell or cooler. You get a fully-adjustable, breathable Cool Ride seat, a work area/cutting board and replaceable mounting boards on each side to attach your fish finder, GPS, lights, or downriggers. The Pro Angler is powered by the Hobie MirageDrive™, which allows you to enjoy fishing without the noise and expense of a gas engine.

1. Rudder Access

The Rudder is easy to control and will turn in its' own length. It is spring loaded and will automatically retract when encountering underwater obstructions. Or it can be quickly retracted manually, recessing safely under the hull.

2. Cargo Area

Carry as much gear as you need with the Bungee® tie-downs. Perfect for an optional Hobie Livewell or cooler.

3. 8" Twist & Seal Hatch

Allows access to additional storage below deck. A simple twist of the handle opens the hatch or closes it against an o-ring seal. The lid also hinges open, so you won't lose it.

4. Vertical Rod Storage

Convenient for easy access, great for trolling or for extra rods, gaffs or your trusty net.

5. Cool Ride Seat

As many anglers and outdoor enthusiasts know—comfort is essential out on the water. The Cool Ride seat is the best that the industry has to offer with plenty of ventilation, lumbar support, and adjustability to find just the right position in any situation.

9. MirageDrive™

The Hobie MirageDrive is simple and easy to use. Just drop it into the well and the "Click & Go" system instantly secures it into place. Rest your feet naturally on the adjustable pedals then push each pedal effortlessly forward in turn to glide across the water. With each step, the MirageDrive "flippers" flex and take the shape of a propeller blade. The astonishing efficiency of this patented design was developed over the centuries by one of nature's most efficient swimmers...the amazing Penguin. The constant application of power reduces or eliminates the effect of wind and current and gives the Pro Angler quiet, efficient power. The finger-tip rudder control leaves your hands free to cast to that special spot. In shallow water, simply push one foot all the way forward. The flippers come up flush with the bottom of the boat, allowing you to get to fish in skinny water.

MirageDrive™

6. Mid-Boat Grab Rails

Use them to turn the boat on its side to access the hull, or as a convenient brace for getting in or out of the boat. The grab rails house a unique Bungee system to hold your tackle in place and also include an 18" ruler for measuring your catch.

7. Mesh Covered Stowage Pockets

Keep the items you need like your sunscreen, snack or waterproof camera, close by.

8. Finger-Tip Steering

Use the responsive steering for precise maneuvering around obstacles and keep a free hand for casting to the perfect spot.

10. Working Area/Cutting Board Storage Hatch

Perfectly placed in front of your seat for easy access. Includes a drop in tackle box including Plano SD Water-Proof Stoway® boxes and a Hobie lure hanger or tool storage.

11. Mounting Boards

Designed to mount your accessories: an optional fish finder, GPS, Radio, lights, downriggers or anything else.

12. Horizontal Rod Storage

Who would have ever thought that you could get up to six rods safely and conveniently stored away in a boat this size? Keep your rods safe from overhangs and free up your casting.

13. Front Hatch w/ Liner

Large-opening storage area offers easy access for storing fish or ice and can be removed for cleaning. Or if you like, stow away your coat, sleeping bag, lantern or tent.

14. Front & Rear Carry Handles

Heavy duty, easy grip carrying handles make moving or transportation on land a breeze.
